

Annex5: Improvements

This annex is to be used only by as the reapplying projects that were previously rejected. Projects applying for the first time do not need to attach this annex to the application form

In case of previously rejected projects please indicate what changes / modifications in the project set up (e.g. partnership, budget, activities etc.) have been introduced in comparison to previously submitted application to improve your project.

The submission of the project during the 4th call was unsuccessful, because the technical difficulties at the final stage of completing the project resulted in the budget inconsistencies. The budget has been corrected in all relevant documents. The project renewal has been negotiated with the partners and the initial project budget has been reduced about 20%. New co-financing conditions have been taken into account. The project text has been additionally negotiated with all the partners and improved.
